
SKILLNOVA

Brand Identity Guidelines

Ishita Chaudhary · ichaudhary1085@gmail.com

BRAND OVERVIEW

SkillNova is an AI-focused learning platform built for college students and early professionals (18–28) across India. The brand identity is designed to feel ambitious, accessible, and forward-thinking — communicating expertise without intimidation.

Every design decision, from the deep-space navy to the electric purple nova icon, reflects a simple promise: the future of skills is here, and it belongs to you.

COLOUR PALETTE

Deep Space Navy

#02002E

Primary Background

Nova Purple

#E250FF

Primary Accent / CTA

Cyber Cyan

#00D4FF

Highlight / Hover States

Pure White

#FFFFFF

Text on Dark Backgrounds

USAGE NOTE

Use Deep Space Navy as the dominant background. Nova Purple drives CTAs and key UI elements. Cyber Cyan provides energy accents and hover states. White ensures legibility across all dark surfaces.

TYPOGRAPHY

HEADING

Montserrat

Bold · Semi-Bold · Regular

Use for all headlines, section titles, logo wordmark, and display text. Geometric and confident.

BODY
PRIMARY

Lato

Regular · Light · Bold

Primary body typeface. Humanist and highly readable at all sizes. Used for paragraphs, captions, UI labels, and CTAs.

BODY
SECONDARY

Aileron

Thin · Regular · Heavy

Secondary body font. Clean, neo-grotesque design. Best used for data callouts, course cards, and supporting copy where a technical feel is needed.

TYPE HIERARCHY

Role	Font	Size	Weight
Display / Hero	Montserrat	48–72 pt	Bold
Section Heading	Montserrat	28–36 pt	Semi-Bold
Subheading	Montserrat	20–24 pt	Medium
Body Copy	Lato	14–16 pt	Regular
Caption / Label	Lato / Aileron	11–13 pt	Light / Regular
CTA Button	Montserrat	14–16 pt	Bold

LOGO

The SkillNova wordmark pairs the Montserrat typeface with a nova/starburst icon — representing the explosive expansion of knowledge. The icon is integrated into the letterform, making it recognisable even at small sizes.

PRIMARY LOGO

Gradient on dark background

ALTERNATE LOGO

Icon + wordmark on deep navy

LOGO USAGE RULES

- Maintain clear space equal to the height of the "S" around all logo edges.
- Never stretch, rotate, recolour, or add drop shadows to the logo.
- Use the primary logo on dark backgrounds; use the monochrome version on light or single-colour backgrounds.
- Minimum logo width: 120px (digital) / 30mm (print).

CREATIVES

All creatives maintain strict brand consistency — deep navy backgrounds, the nova starburst, Montserrat headlines, and Lato body text. The purple CTA buttons are consistent across formats.

INSTAGRAM POSTS (1080 × 1080 px)

Post 1 — Hexagon network theme

Post 2 — Bokeh circuit theme

MARKETING POSTERS (A4 — Print & Digital)

Poster 1 — Circuit lines minimal

Poster 2 — Pixel type event style

DESIGN EXPLANATION

SkillNova's visual identity is built around the idea of a "knowledge explosion" — represented by the nova starburst icon embedded in the wordmark. Deep Space Navy (#02002E) forms the dominant background, evoking ambition, depth, and focus. Nova Purple (#E250FF) drives energy and action, used exclusively for CTAs and accents, while Cyber Cyan (#00D4FF) provides digital vibrancy for highlights and hover states.

Montserrat leads all headlines — its geometric confidence signals authority without coldness. Lato handles body copy with warmth and legibility. Aileron supports data-heavy UI elements where a technical tone is needed.

The Instagram posts use network and circuit motifs to resonate with the tech-savvy 18–28 audience, while maintaining a clear visual hierarchy: bold headline → supporting text → CTA. The A4 posters mirror this rhythm in print format, adding illustrative elements for human warmth. Every creative uses the same colour system and icon, ensuring instant brand recognition across all touchpoints.
